

## About Firefly Academy

### ☀ Discovery Learning

At Firefly Academy we believe that children gather and retain information best through the process of discovery, directed by internal motivation. Through play, developmentally appropriate and intellectually stimulating activities, children are better prepared for lifelong learning.

### ☀ Montessori-Inspired

Our program includes a differentiated classroom setting, self-directed learning, and independent choices all within an active learning community. Montessori materials and activities allow each child to be his/her own teacher.

### ☀ Multiage Environment

Children move through stages in a set order, but not necessarily at a set pace; for this reason we believe in the richness of a multiage program. Another is that the positive interaction among mixed ages provides a framework to develop empathy, compassion, leadership, responsibility, and accountability.

Firefly Academy Summer Day Camp  
842 Washington Street, Suite 104  
Port Townsend, WA 98368

**Join us for a summer of fun!**  
*July 6 - August 28*

### Our Preschool - 4th Grade Program includes:

- ☀ Trips to the Marine Science Center, Farmers' Market, and Uptown Community Garden
- ☀ Exploration Beach Walks
- ☀ Messy Arts & Crafts
- ☀ Crazy Science Experiments
- ☀ Music with Keeth
- ☀ French & Japanese
- ☀ Yoga & Creative Movement
- ☀ Explore•Math•Science Workshops (Grades 1-4)

Children may be enrolled for 2-5 days per week, for as few as two or as many as eight weeks. Preschoolers and Kindergartners may be enrolled for either the morning or afternoon session each day. We offer an All-Day Program for school-age children (Grades 1-4) on Tuesdays, Wednesdays, and Thursdays.

4b	August 17-21 August 24-28	Tues - Thurs 2pm - 5pm	Our Community

### Explore • Math • Science Workshops

Every Tuesday, Wednesday, and Thursday afternoon, between 2:00 and 3:30 p.m., Cheryl Goerger will engage our 1st - 4th grade learners in fun, intriguing hands-on math and science investigations. These workshops will provide an opportunity for deeper exploration into our weekly themes.

As a certified K-8 educator, Cheryl has been cultivating math & science minds for nearly 20 years. Her passion for getting kids excited about math & science was kindled while managing a statewide enrichment program at Pacific Science Center, where she trained teachers, developed curriculum, and led workshops.
